 Subject: Fax Call from Congresswoman Pelosi's Office

JB, counter rather than later, or this Speaker's folks may think I'm slow walking them for other than logistical/practical reasons. She is a bit pushed out of shape with us for not getting a "perit house" office for her staff in the SFFB. Lurita, thanks for expressing my (and I'm sure other PAs) frustration (during today's call) in not getting the WFO to recognize all the good GSA ideas around the country for the Nation's taxpayer and federal agencies and that we are successful as we are because we are following this President's agenda. He and his Administration are NOT getting proper recognition for this RFD...

 Subject: Call from Congresswoman Pelosi's Office

Just returned a call from Paul Corp in Congresswoman Pelosi's office. He wanted to confirm that 4-5 April were still good planning dates for the San Francisco Federal Building Dedication and said they were preparing to work to confirm availability of Congresswoman Pelosi for those dates. I told him that for planning purposes we were working toward those dates but we have NOT received confirmation from our Regional Administrator, as of yet. He said that given that they would NOT present those dates to Congresswoman Pelosi at this time and would wait and we had the date confirmed to check her availability.
